API Sathi

Rate card — every API and what it costs

23 September 2026
apisathi.in
+91-7413014661

Prices are per **successful** call and exclude 18% GST, which is charged on wallet recharge with a tax invoice. A call that fails upstream is never charged. No subscription, no minimum volume, no commitment — prepaid wallet, billed to the paisa.

How billing works. Recharge a prepaid wallet (Razorpay); each successful call debits its price to the paisa. Bigger top-ups earn bonus credit. Balance does not expire. Every recharge and the monthly statement are GST tax invoices from Pravaha Infinity Private Limited, so your finance team can claim input credit. Volume pricing for 10,000+ calls a month on request.

Prices are dynamic. They track the cheapest healthy source for each API and may change; your wallet is only ever debited at the price shown at the time of the call. Rows marked coming soon are in the catalogue but not yet wired to a live source — the price shown is indicative.

e-Stamp. The price shown is our flat service fee per order; the stamp duty itself is paid to the state and passed through at cost (Rajasthan adds its statutory 30% surcharge on duty).
